

## Primary Measures Made in Real-Time

Behavior Type	Variable	Description
Rear	Rear_Still	Rearing and still
	Rear_Sniff	Rearing and sniffing with small short head rotations
	Rear_Bob	Rearing and moving whole head and/or body up and down
	Rear_Climb	Rearing and trying to climb using limbs
Groom	Paw	Grooming paws using very short paw and head movements
	Nose	Grooming nose using short paw movements
	Head	Grooming head using paws in long circular strokes
	Face	Grooming face and eyes using paws in medium strokes
	Cheek	Rubbing side of face with arm/shoulder
	Leg	Grooming leg with medium head strokes
	Back	Grooming back with long head strokes
	Genital	Grooming genitals with rapid short head strokes
	Tummy	Grooming abdomen with medium head strokes
	Shimmy	Rapid short rotations of the body like 'hula dancer' or wet dog
	Scratch	Rapid strong movements of the leg
Orient	Orient_Sniff	Head extension with small short head rotations
	Orient_Look	Head and shoulder extension with whole head movements
	Orient_Shuffle	Repositioning feet with little displacement of body
	Orient_Creep	Moving 1 or 2 steps slowly
Ambulation	Still	Stationary with no body movements
	Walk	Slow locomotor movement with flat posture
	Trot	Medium locomotor movement with arched posture
	Run	Fast locomotor movement with arched posture

## Secondary Calculations Made after Session:

- Total seconds spent emitting primary behavior
- Average length of emitted behavior type
- Variability of length of behavior
- Behavior type by Zone Area
- Behavior type by time interval
